

SEEABLE PRIVACY POLICY

Privacy practices for the SeeAble mobile application

Effective date: July 15, 2026

Last updated: July 15, 2026

Application: SeeAble

Package name: com.busrafettahoglu.seeforme

Developer and publisher: Busra Fettahoglu

Privacy contact: ms.busrafettahoglu@gmail.com

This Privacy Policy explains how SeeAble handles information when you use the SeeAble mobile application, related services, and supporting infrastructure. For purposes of this Policy, “SeeAble,” “we,” “us,” and “our” refer to the developer and publisher of the application.

1. Overview

SeeAble is an AI-assisted accessibility application intended to help users receive spoken descriptions and answers concerning images, objects, text, and surroundings captured through a supported device.

The application may use artificial intelligence services to analyze information supplied by the user. AI-generated results may be incomplete, delayed, inaccurate, misleading, or entirely incorrect. The application must not be treated as a substitute for human assistance, mobility training, emergency services, professional advice, or the user’s own judgment.

2. Information the Application May Access or Process

2.1 Camera images and photographs

When you activate a feature that analyzes your surroundings, the application may access the device camera and capture an image for processing. The image may include objects, printed text, people, documents, surroundings, or other content visible to the camera. Camera access occurs only after the user grants camera permission and activates a camera-based feature.

2.2 Microphone audio

When you use voice interaction, the application may access microphone audio to receive and process your spoken request. Audio may be converted into text using speech-recognition technology. The resulting text may be transmitted for AI processing. Microphone access occurs only after the user grants microphone permission and activates a voice-based feature.

2.3 Text, prompts, and conversations

We may process:

- Questions typed or spoken by the user;
- Text produced through speech recognition;
- AI-generated answers;

- Limited conversation context required to provide follow-up responses.

Do not submit passwords, financial account information, medical records, government identification documents, private correspondence, or other highly sensitive information unless absolutely necessary and legally permitted.

2.4 Device and application information

The application or its service providers may process limited technical information needed to operate, secure, diagnose, or improve the service, such as:

- Application version;
- Device operating system and platform;
- Error, crash, and diagnostic information;
- Request timestamps;
- Service performance information;
- Security and abuse-prevention information;
- A limited installation or device-related identifier used to apply usage limits, where implemented.

We do not intentionally collect IMEI numbers, SIM serial numbers, contact lists, precise location information, or advertising identifiers unless a future version expressly requires such data and this Privacy Policy and the application disclosures are updated beforehand.

2.5 Support communications

When you contact us, we may receive your name, email address, message, technical details you voluntarily provide, and attachments or screenshots you voluntarily send.

3. How We Use Information

We may use information to:

- Provide image descriptions and answers;
- Process voice requests;
- Convert audio to text and generated text into spoken output;
- Maintain conversation context where necessary;
- Operate accessibility features;
- Enforce usage limits;
- Diagnose errors and service failures;
- Improve reliability, performance, and security;
- Prevent fraud, abuse, or misuse;
- Respond to support or privacy inquiries;
- Comply with legal obligations;
- Protect users, the public, the service, and our legal rights.

We will not use camera or microphone information for unrelated advertising purposes.

4. How Information Is Transmitted and Shared

SeeAble may transmit user-submitted images, audio, prompts, and related technical information to service providers that process the information on our behalf.

These providers may include:

- Cloud-hosting providers;
- Backend infrastructure providers;
- Artificial intelligence model providers;
- Speech-recognition providers;
- Text-to-speech providers;
- Security, monitoring, or diagnostic providers.

We do not sell personal information.

We may disclose information:

- To vendors needed to operate the application;
- When required by law, subpoena, court order, or lawful government request;
- When reasonably necessary to investigate fraud, misuse, security incidents, or threats;
- To protect the rights, property, or safety of users, the public, or the developer;
- In connection with a merger, transfer, sale, reorganization, or succession of the application, subject to applicable legal requirements.

5. Camera and Microphone Disclosure

SeeAble uses camera data to capture and analyze images when the user requests visual assistance. SeeAble uses microphone data to receive voice questions when the user activates voice interaction.

Depending on the selected feature and service configuration, captured images, voice-derived text, prompts, and AI responses may be transmitted securely to SeeAble's backend and contracted AI or cloud providers to produce the requested response.

Camera and microphone permissions are required only for the corresponding features. Users may deny or revoke these permissions through their device settings, although those features will then be unavailable.

6. Data Retention

We intend to retain personal information only for as long as reasonably necessary for the purpose for which it was processed.

- Camera images and microphone submissions are intended to be processed for the requested operation and are not intended to be maintained by us as a permanent personal media library;
- Temporary files may exist during processing, transmission, error recovery, security review, or system operations;
- Technical and security logs may be retained for a limited period to diagnose problems, enforce usage limits, prevent abuse, and satisfy legal obligations;

- Support emails may be retained as necessary to respond to the request and maintain appropriate business records;
- Third-party providers may retain information according to their own contractual terms and privacy practices.

7. Data Deletion Requests

Users may request deletion of personal information controlled by SeeAble by contacting us. The request should include enough information for us to identify the relevant data without requiring unnecessary sensitive information.

We may retain limited information where reasonably necessary to:

- Comply with law;
- Resolve disputes;
- Detect or prevent fraud;
- Enforce agreements;
- Maintain security;
- Establish or defend legal claims.

Information controlled independently by third-party providers may be subject to their deletion and retention policies. If SeeAble later introduces user accounts, we will provide an account-deletion process consistent with applicable platform requirements.

8. Data Security

We use reasonable administrative, technical, and organizational safeguards appropriate to the nature of the information processed. These safeguards may include:

- Encryption in transit using HTTPS or comparable transport security;
- Restricted access to production systems;
- Credential and secret-management controls;
- Logging and service monitoring;
- Reasonable access-control and authentication practices;
- Limited retention where practical.

No network, storage system, software application, or method of transmission is completely secure. We therefore cannot guarantee absolute security.

9. User Responsibilities and Privacy of Other People

The user is responsible for deciding what the device camera and microphone capture. You should not photograph, record, or transmit:

- People in circumstances where they reasonably expect privacy;
- Private conversations without legally required consent;
- Confidential workplace information;
- Medical records;

- Government identification documents;
- Financial credentials;
- Passwords or authentication codes;
- Copyrighted or legally restricted information that you are not permitted to submit.

You are responsible for complying with applicable privacy, recording, surveillance, confidentiality, and intellectual-property laws.

10. Children's Privacy

SeeAble is not presently intended to be directed specifically to children under 13. We do not knowingly create profiles of children or intentionally solicit personal information from children under 13.

If you believe a child has provided personal information to us, contact us so that we may investigate and take appropriate action.

11. International Processing

Information may be transmitted to and processed in the United States or other countries where our service providers operate. Privacy laws in those countries may differ from the laws in the user's country. Where required, we will use appropriate legal and contractual measures for international processing.

12. Privacy Rights

Depending on where you live and whether an applicable privacy law covers our activities, you may have rights concerning access, correction, deletion, obtaining a copy of certain information, restricting or objecting to certain processing, and appealing the denial of a privacy request.

To submit a request, We may need to verify the request before responding. Legal rights and exceptions vary by jurisdiction.

13. Changes to This Privacy Policy

We may update this Privacy Policy when the application, providers, legal obligations, or data practices change. The effective or updated date at the top of the policy will be revised when changes are made. Material changes may also be disclosed within the application or through another appropriate notice where required.

SEEABLE TERMS OF USE

AI Safety Disclaimer and Limitation of Liability

Effective date: July 15, 2026

Application: SeeAble

Developer and publisher: Busra Fettahoglu

Legal contact: ms.busrafettahoglu@gmail.com

These Terms of Use govern your use of SeeAble. By installing, accessing, or using SeeAble, you acknowledge that you have read and agreed to these Terms. And also agreed on that SeeAble is not a navigation tool. If you do not agree, do not use the application.

CRITICAL SAFETY WARNING: SeeAble uses artificial intelligence. AI can omit, misunderstand, misidentify, or invent information. Do not rely on the application as your only source of information when health, safety, navigation, identity, medication, food allergens, legal rights, finances, or emergencies are involved.

1. AI-Generated Information May Be Wrong

Artificial intelligence can:

- Invent or hallucinate objects, text, people, hazards, or details;
- Fail to detect objects that are actually present;
- Misread labels, signs, handwriting, instructions, or documents;
- Misjudge distance, depth, location, direction, movement, or size;
- Confuse one object, product, person, medication, or food item with another;
- Provide inconsistent answers to the same question;
- Produce an answer that sounds confident even when it is incorrect;
- Fail because of poor lighting, glare, obstruction, motion, camera angle, connectivity, service outages, or model limitations.

You must independently verify important information.

2. Not a Navigation or Personal-Safety System

SeeAble is not designed or approved as a primary navigation, collision-avoidance, emergency, or personal-safety system.

Do not rely on SeeAble as your only means of:

- Crossing a road;
- Detecting vehicles;
- Using stairs or escalators;
- Avoiding drop-offs, water, fire, electrical hazards, animals, machinery, or obstacles;
- Navigating unfamiliar environments;
- Determining whether an area is safe;

- Operating a vehicle, bicycle, machine, or mobility device.

Use established mobility aids, orientation and mobility practices, available accessibility infrastructure, and trusted human assistance.

3. Not Professional Advice

SeeAble does not provide medical, pharmaceutical, legal, financial, engineering, emergency, or other licensed professional advice.

Do not use the application to:

- Identify medication or medication dosage;
- Determine whether food is safe for an allergy;
- Diagnose a medical condition;
- Evaluate an emergency;
- Make legal or financial decisions;
- Interpret safety instructions without verification;
- Identify a person with certainty;
- Authenticate currency, legal papers, identification cards, or official documents.

In an emergency, contact local emergency services or a qualified person.

4. Assumption of Risk

You are responsible for how, where, and under what conditions you use the application. You acknowledge that reliance on inaccurate AI output may create risk of injury, property damage, financial loss, privacy loss, or other harm.

You agree to use reasonable judgment and seek verification whenever accuracy or safety matters.

5. No Guarantee

SEEABLE IS PROVIDED ON AN “AS IS” AND “AS AVAILABLE” BASIS.

To the fullest extent permitted by applicable law, we disclaim express, implied, and statutory warranties, including warranties of accuracy, reliability, availability, merchantability, fitness for a particular purpose, non-infringement, error-free operation, compatibility, and uninterrupted service.

We do not guarantee that the application will always be available, that every feature will work on every device, or that descriptions and answers will be correct.

6. Limitation of Liability

TO THE FULLEST EXTENT PERMITTED BY APPLICABLE LAW, THE DEVELOPER, PUBLISHER, CONTRIBUTORS, CONTRACTORS, LICENSORS, INFRASTRUCTURE PROVIDERS, AND SERVICE PROVIDERS WILL NOT BE LIABLE FOR INDIRECT, INCIDENTAL, SPECIAL, CONSEQUENTIAL, EXEMPLARY, OR PUNITIVE DAMAGES ARISING FROM OR RELATING TO THE APPLICATION.

This includes loss or damage arising from:

- Incorrect or incomplete AI output;
- Failure to identify an object or hazard;
- Misreading text or labels;

- Service delay or outage;
- Loss of data;
- Reliance on application output;
- Unauthorized or unlawful use of captured information;
- Actions taken or not taken based on application output.

To the fullest extent permitted by law, our aggregate liability arising from the application will not exceed the greater of: (1) the amount paid directly to us by the claimant for use of the application during the 12 months preceding the event giving rise to the claim; or (2) one hundred United States dollars.

The limitations above do not exclude liability that cannot lawfully be excluded or limited.

7. User Conduct

You may not use SeaAble to:

- Break the law;
- Invade another person's privacy;
- Secretly record people where prohibited;
- Harass, stalk, exploit, deceive, or harm another person;
- Violate copyright or confidentiality obligations;
- Upload material you have no legal right to process;
- Attempt to compromise, reverse engineer, overload, or disrupt the service;
- Circumvent security controls or usage limits;
- Use the application for unlawful biometric identification, surveillance, or profiling.

8. Third-Party Services

Certain features rely on third-party infrastructure and artificial intelligence services. We do not control third-party availability, processing times, model output, policy changes, outages, prices, quotas, or service discontinuation. Third-party terms and privacy policies may also apply.

9. Modifications and Discontinuation

We may modify, restrict, suspend, or discontinue any part of the application where reasonably necessary for maintenance, security, legal compliance, provider changes, abuse prevention, or business reasons. We do not guarantee continued availability of any particular model, feature, provider, or free usage allowance.

10. Indemnification

To the fullest extent permitted by law, you agree to indemnify and hold harmless the developer and publisher from third-party claims, liabilities, losses, and reasonable expenses arising from:

- Your unlawful use of the application;
- Content you capture or submit without authority;
- Your violation of another person's privacy or rights;
- Your violation of these Terms;

- Intentional misuse of the service.

This provision does not require a consumer to indemnify us for our own unlawful conduct, gross negligence, or willful misconduct where such a limitation is prohibited.

11. Governing Law

These Terms are governed by the laws of the State of Texas, excluding conflict-of-law rules, except where mandatory consumer laws provide otherwise.

Subject to applicable consumer rights and jurisdictional requirements, claims concerning these Terms or the application shall be brought in a court of competent jurisdiction located in Fort Bend County, Texas.

12. Severability

If any part of these Terms is found unenforceable, that portion will be enforced to the maximum extent permitted or severed, and the remaining provisions will remain in effect.

13. Entire Agreement

These Terms, together with the SeeAble Privacy Policy and any applicable in-app disclosures, constitute the agreement concerning use of the application.

14. Acknowledgement

By using SeeAble, you acknowledge that:

- You understand the application uses AI and may be wrong;
- You will use it cautiously and not as your only safety system;
- You accept the service on an “as is” and “as available” basis;
- You accept the limitations stated in these Terms to the fullest extent permitted by law.
